

VIOLENT BRAZILIAN MASSAGE

We're back !

If you thought that we were dead, you're wrong

I can't believe we're coming back so strong

We'll be laughing while looking in the eye of the cyclone

Jump into the storm

Jump into the storm

From the dawn of times, it was in my mind

This preservation instinct saved m yass way more than once

But now I face the trip, it's wrong

Now things are put into perspective

Welcome to salvation town

All around the world

All the boys and girls

Crazy people unite

We will start the fight

All around the world - Preservation

All the boys and girls – Won't stop the pain

Crazy people unite – My new nation

We will start to fight

You need a violent brazilian massage

You'll see the pain was worth it, in a while

You need a violent brazilian massage

Sky will change color when you're out

If you thought that we were dead, you're wrong

I can't believe we're coming back so strong

We'll be laughing while looking in the eye of the cyclone

Jump into it

If you thought that we were dead, you're wrong

I can't believe we're coming back so strong
We'll be laughing while looking in the eye of the cyclone
Jump into the storm
And if you were expecting old stuff
No
First i twill be soft, yeah but not too soft
I saw her old feet dancing when she grabbed my soul
The balls of stress explode, BOOM !
Your neck is jelly now, keep cool !
Relax, don't do it
All around the world
All the boys and girls
Crazy people unite
We will start to fight
If you thought that we were dead, you're wrong
I can't believe we're coming back so strong
We're back, so strong
The violent brazilian massage
It rocked my world
The strain, the plane, it can't be wrong
High, my world is no longer a friend of mine
So do I, this swirl is no longer a friend of mine
Friend of mine, friend of mine
No !
Bring the oil
Shake baby, shake shake
You need a violent brazilian massage in your life !

WE WILL WIN THIS WAR

3, 2, 1

You want to know, want to know why, this war ?

No place to, no place to hide now

Hiding under skins
Bruising the message
Out and in the cage
Hiding all our sins
Proving we're not weak
Proving we can fuck
For us the highest luck

Never to be sick

Cause it's just a question of time
A question of wondering why
Moving your old positions
A question of wondering why

I can let it all go

I won't control life

I won't prove anything

I will win this war

Why, know why

Win this war

I'm not white inside

I'm not what you dreamt of
Or what I deserve
I'm what I want to be

Someone I can call « me »

Someone I can trust easily

Nor less or more I'll be

Someone who can stop wondering why

Why

Someone I can call « me »

Someone I can trust easily

Nor less or more I'll be
Someone who learned wondering how
How

Someone I can call « me »
Someone I can trust easily
Nor less or more I'll be
Someone who shout in my face now
Now

We will win this war

The end of question why
The end of question how
The power to say now
We will win this war

SSANTA CLAUSS (WRITE ME A LETTER)

Write me a letter

For your kids
For your toys
For redemption

For your dreams
For your sweets
Absolution

Hey man, suck my cock, suck my motherfucking cock

You're the one who can rescue
Like a morning ritual

Your religion as a clue
Please help

Can somebody tell me now
Private individuals ?
All I wanna know is how
We became a cemetery

Because
We've got
Nothing
To say
Nothing
No hope
At all

No

All our gods
They fell and failed somehow
What's the point ?
They disappointed us now
All we have
All we have is you Claus
Victory's
On our side, now Gods Raus

Hey guys
Sorry to say
But I'm no part of your bullshits stuff
It's not my role to play your God
No
And by the way

What's these uniforms on these kids below ?

Is it an army ?

In the name of me ?

These are the faithfuls we refuse to be

This is our new cross

This is our new faith I want to believe in,

This is a weapon I want to be using,

This is a beard that I want to see growing,

Red will be leading

Dress in red

White beard

Santa Claus is tired of humans

Santa Claus is giving up

Santa Claus is tired of humans

Santa Claus is giving up so please come back later I'm drinking mojitos

SHAMPOO THE PLANET

Shampoo

It flows away and flies

Humanity's in flames inside your head

Another season's dying

Another bridge that crumbles into the drain

Tic tic tic tic tic tic tic tic – It tickles in your sleep

Tic tic tic, tic tic tic – Pray the lord your soul to keep

Tic toc tic toc tic toc tic toc – You wish the clock was numb

Tic tic tic tic tic tic tic tic – And now you're gone

Feel it in my bones

I feel it out of control - SHAMPOO

My faith in human is none
Turn the TV off
Let's put the jerks in line
And find the shampoo they like and wash their heads
Everyone would feel so bright
No one would want to fight and mess the hair
Reset the world with water
Shoop shoop shoop shoop
Remember your old mother
Using the hairdryer
I feel it in my bones
I feel it out of control
Feel it in my bones
I feel it out of control - SHAMPOO
My faith in human is none
Turn the TV off
Stuck in yourself, you just watch
Without a second thought
It's just another session
But if the protagonists refused to play their role...
It's a small world, after all
It's a small world, after all
Small
So small
Every night, you fake it's cool
You need to call for your inspiration
To face the cowardice of your brothers
Anyway, now you've got your solution
I feel it in my bones
I feel it out of control

Now, my faith restored

All hail the power of Head and Shoulders

Shampoo them all

Shampoo them all

Shampoo them all

Out of control

Shampoo them all

FUCK ME 'TIL THE END OF TIMES

Fuck me 'til the end of times

Years after years, have we found peace of mind ?

There's no resentment, no frustration, just a fact

We're not hard bargainers, at the most containers of stupid jokes

Yes I could have been richer than a fucked up metal guy

But I think I'm the worst business man you could ever find

And I guess you love to see me as this metal guy

Imagine we could sell water to a scottish sky

So don't you try to comfort me now, try to comfort me now, try to comfort me now

You have the right to blame me now, the right to blame me now, the right to blame me now

There's no resentment

There's no resentment, no !

So don't you try to comfort me now, so don't

So don't you try to comfort me now, try to comfort me, try to comfort me now

You have the right to blame me now, the right to blame me now, the right

Louder hardliners arguing

Older morons confusing

We are the losers.

What a pride.

We tried to win, yeah we tried.

In vain

We are the naive.

What a pride.

Become bad guys, yeah we tried.

In vain

Fuck

Fuck me

'Til the end

'Til the end of times

Here's the plan

Please steal all our money

Consider us as fools

Spank, hurt, and please use condoms

I chose to be this way, as if metal is where it's at

I got the choice to scream, to spit, to drink, to lie and lose

I'd rather be the snake than the condor, Paul and Art

I got the choice to scream, to spit, to drink, to lie and lose

Relax, everything will be alright, alright, relax

Everything will be alright, alright

Fuck me 'til the end of times ...

But I'm not sure I'll like it

Fuck me 'til the end of times

COOLER THAN GOD

When I was a child, and feeling bad, so bad

I knew that this old man way above me

Would answer all my prayers enlightening skies, so high

But who the fuck was this guy anyway ?

Up from your cross – Drop the nails, drop the nails, drop them !

You're missing all the fun

What a huge loss – Fuck your Dad, fuck your Dad, fuck him !

Jump in the pool of joy

Having sex ? - Cooler than God !
Drinking Jack ? - Cooler than God !
Having a snack ? - Cooler than God !
Riding a shark ! - Cooler than God !
What's cooler than God ?
You're cooler than God
I'm cooler than God
We're cooler than God !
Cooler than God
Out of a cave or a desert, we're cooler than God
We won't buy genuflection
More and more and more
We won't worship your dragons
No more no more no more
Let's move
On !
Ain't it cool ?
Fear is like a fish in my mind, I'm not scared
Just swim like the waters won't quiver again
Live, live, and let live

CRISIS OF TODAY

It's a sweet inspiration

It's a mad institution

But I know the sensation

You, my saddest intention

Stay the fuck away from my birthday – Institutional

I would show you the door out anyway – It's institutional

Will I survive X-Mas holidays ? - Institutional

Fuck ! Sorry

Old I don't want anymore

I like to soothe myself picturing babies on the floor

Playing games

Now, could we reach out the force

To catch a glimpse of what these happy people call beautiful ?

Hear the voice of the ancients

Trust your high expectations
We're not here for promotion
I will find a solution
I will laugh of the horror– Here's to the pain
I will look in the mirror – Here's to my face
We will build a new fortress – Here's to the true believers
And more
We are the true believers
Old I don't want anymore
I like to soothe myself picturing babies on the floor
Playing games
Now, could we reach out the force
To catch a glimpse of what these happy people call beautiful ?
Listen to your inner voices
They're always right
And I see the light
Yes, I can see the light
Can you see the light too ?
I look in the right direction – Cool down
I look - Alive
Old, I don't want anymore
I like to soothe myself picturing babies on the floor
The crisis of today, the joke of tomorrow
The crisis of today
The joke

THE LONG RIDE HOME (SUNRISE)

(Narrator) One day he awoke from a very long sleep
The scenery had changed, he listened to the wind
Peacefully but still worried, he got up on his feet
And braced himself for the very long trip

THE LONG RIDE HOME (SUNDOWN)

Ride against, ride against, ride against the storm

Your old sins make the best companions

Break again, break again, break again the walls

Don't stop until you feel home

Resist the sand and the blood and the rain

And the dirty images that come

Time's on your side

False is the bride

You've got a ticket to ride

Home, what a word so small

To express love

What's written in books is a part of the iceberg

Your journey is sunny, the demons are slower

Don't look behind

Stick to your pride

Embrace the twisted corridors in your mind

Kill them

Embrace them

Fuck them

Sure you can

Home, what a word so small

To express love

Fall, night, with your great hope

And the smell of smoke

Long is the ride

Long is the ride

Long it is – For once I was right

Long is the ride

Long is the ride

Long it is – Soon I'll be arrived

(Narrator) He had one single test to face left

To finish the quest

Climb the mountain of guilt

And accept happiness

Ready ? Go

Accept the wisdom – Wisdom

Throw up the pattern

Join this new faction – Faction

Admire horizon

Wisdom

Kingdom

New home

All my demons and my angels fed

Feel heaven and earth can be the same

All my demons and my angels, the same

I feel heaven and earth, they can be fed
